

**Exceptional**

## **Price Increase**

**Better,  
faster,  
direct  
informed!**

Dear customers and business partners,

the worldwide upward business trend of the industry has meanwhile also initiated a dramatic price trend in the German supplier market.

The various media continuously reported in the past months about the development and forecasted, that MDF and Aluminium as well as semi-finished product prices are rising up nearly every week or month which you can notice in each newspaper and media reports.

Meanwhile, our previous suppliers for MDF boards and Aluminium profiles have risen up the prices permanently. We regret it very much, that we are also now forced to rise our prices for slatwalls and profiles.

We kept our prices now for years in the same level but we are unable to do this also in the future. Therefore and because of the permanent increases during this year we have no option to correct the prices from 01.01.2007.

The new prices could be downloaded at end of November from our new designed website [www.spacewall.de](http://www.spacewall.de). We will inform you exactly about the possibility in the next mailing.

We would again like to express our regret for this letter and hope you understand.

With friendly greetings  
**SPACEWALL® GmbH**

Yours, *Peter Schödel*  
Peter Schödel

We naturally always strive to offer our customers high quality products at fair prices.

**SPACEWALL®** – Your competent and innovative partner for shop fitting and measuring systems.
